- Implemented development strategies to optimize website performance and decrease page load times by over 33%, resulting in a 15% increase in customer engagement.
- Incorporated a content management system for easy maintenance of data by non-technical personnel with secure authentication features for user login.

EDUCATION

B.tech Computer Science

MONTH 2020 - MONTH 2024

Uttaranchal University • India, Dehradun • 2024 • 8.0

Higher education

MONTH 2018 - MONTH 2020

Quazi Ahmed Inter College • india, Darbhanga • 2020 • 74%..

Secondary education

MONTH 2017

S R D A V Public school, pupri • india, Sitamarhi • 2017 • 77%.

SKILLS

Backend Development:

Django, Python, MySQL,

PostgreSQL Frontend

Proficiency: HTML, CSS,

Bootstrap, JavaScript

Environment: UNIX/Linux

Version Control: Git, SVN

Deployment: Application

Deployment Project

Management: Time

Management, Collaboration

PROJECTS

PREDICTIVE HEALTHCARE SYSTEM

September 2023 - November 2023

Built and maintained full-stack

predictive healthcare system in

Python, Django, and Machine

Learning allowing users to access

real-time insights and model

trends

PRICE-WISE ESTATE

June 2023 - July 2023 Developed

real-time image segmentation

models using edge computing

involving configuring TensorFlow

and other deep learning packages

on NVIDIA Tegra..
